

Device Information Guide

# Our Mission

At Therabody, our mission is to inspire and enable everybody to live longer, better healthier lives. We recognize that self-care needs are ever-evolving, and we continue to innovate new solutions that support your daily journey.

Over the last decade, we have continued to combine scientific research, cutting-edge technology and real customer feedback to create effective, customizable, easy-to-use solutions that work to relieve your pain, stress, and tension while supporting your sleep, performance and skin health. With the new additions to Therabody's lineup, we are making it easier and more convenient for you to feel, perform and look your best.

# THERAGUN

Designed by experts. Backed by science.

Our patented design and science-backed combination of depth, speed and no-stall force — that's what makes Theragun™ percussive therapy so effective.

## Depth

Tailored intensity — from a milder, soothing massage to a deep, powerful treatment, find the right massage experience for you.

## Speed

Instant relief — scientifically-calibrated speeds send signals to the brain to help relieve pain fast.

## No-stall force

Unparalleled reliability — massage speed and depth stay consistent when you apply pressure to the device.

We offer 3 intensity levels of percussive therapy all designed to deliver therapeutic benefits: Comfortable, Moderate and Powerful.

### Comfortable percussive therapy

At 10 mm, this treatment depth offers a circulation-boosting massage to effectively relieve daily aches and pains. Designed to provide an ultra-comfortable massage experience, it is perfect for those who prefer a slightly milder, soothing massage.

### Moderate percussive therapy

At 12mm, this is the ideal treatment depth for alleviating more persistent pain, stress and tension in your body. It is the perfect middle-ground for those seeking effective relief that's not too intense.

### Powerful percussive therapy

At 16mm, our signature treatment depth offers a powerful, invigorating experience targeting deep-seated muscle soreness for faster recovery and long-lasting pain relief. Perfect for those who prefer a more intense massage or want to maximize athletic performance.

# THERAGUN

## PRO Plus

\$599

## The ultimate multi-therapy device engineered to unlock exceptional performance.

Theragun PRO Plus goes where no massage device has gone before, merging six science-backed therapies — percussive therapy, near infrared LED light therapy, vibration therapy, heat therapy, cold therapy (sold separately) and breathwork — for limitless treatment options. Tap into your ideal mindset with guided breathwork, laying the foundation for more integrated mind-body treatments. Use each therapy individually or combine them to more efficiently support mind and body, including both muscles and joints. Equipped with step-by-step routines and a built-in biometric sensor for personalized insights — Theragun PRO Plus makes your comprehensive treatment incredibly user-friendly. Trusted by professionals and using therapies scientifically proven to relieve pain, improve mobility and optimize recovery, this versatile device is a game-changer.

### Features:

- 16mm percussive massage therapy
- Vibration therapy with 3 vibration speeds
- Heat therapy with 3 temperature levels
- Built-in near infrared LED light therapy
- Built-in biometric sensor for on-device heart rate readings
- Guided breathwork with haptic vibration cues
- 5 built-in step-by-step visually guided routines
- Patented triangle grip to reach more of your body than other devices
- 5 speeds LCD screen to manage massage speed and force
- Unparalleled reliability with up to 60 lbs. of no-stall force

- 40 min - 150 min battery life (varies by attachment)
- Bluetooth connected to the Therabody App for step-by-step guided routines and device customization
- Cold therapy with 3 temperature levels (sold separately \$89)

### Key Benefits:

- Relieve pain
- Recover faster
- Treat joints
- Improve mobility
- Enhance performance

### Includes:

- Theragun PRO Plus device
- Built-in LED light therapy
- Built-in Biometric sensor
- 5 massage attachments:
  - Standard ball
  - Dampener
  - Thumb
  - Wedge
  - Micro-point
- Heat therapy attachment
- Vibration therapy attachment
- QuietForce solution
- USB-C charging cable
- Travel pouch

# THERAGUN SENSE

\$299

## Relaxing, scientifically-proven massage therapy with a built-in guide for everyday pain and stress relief.

Your guide for everyday wellbeing, Theragun Sense features relaxing massage therapy scientifically proven to relieve aches and pains, ease soreness, reduce stress and help you sleep better. Take the guesswork out of your treatments with an LCD screen that acts as your personal guide, displaying easy to follow step-by-step massage and breathwork routines directly on the device. Choose from 5 preloaded routines, or personalize them to fit your needs by swapping and saving your favorite routines from the Therabody app. Plus, build daily stress-relieving habits with an immersive breathwork experience in the Therabody app featuring 3 visually-guided breathwork routines, relaxing TheraMind sound therapy and haptic vibration cues directly on the device. Whisper-quiet, lightweight and equipped with our patented triangle grip so you can easily reach anywhere on your body, Theragun Sense makes it easy to create an effective, personalized wellness routine.

### Features:

- 12mm percussive massage therapy
- LCD screen with 5 built-in visually guided massage and breathwork routines
- Personalize the guided routines on your device by saving your favorites from the Therabody app
- Whisper-quiet for a distraction free treatment
- 4 scientifically designed attachments to target different areas of the body
- Patented triangle grip to reach more of your body than other devices
- 5 speeds with LCD screen to manage massage speed and force
- Immersive relaxation experience with guided breathwork, visuals and TheraMind sound therapy in the Therabody app
- 120 min battery life
- Bluetooth connected to the Therabody App for step-by-step guided routines and device customization

### Key Benefits:

- Relieve aches & pains
- Ease soreness
- Reduce stress
- Sleep better

### Includes:

- Theragun Sense device
- Built-in biometric sensor
- 4 massage attachments:
  - Standard ball
  - Dampener
  - Thumb
  - Micro-point
- USB-C charging cable
- Travel pouch

## THERAGUN RELIEF

\$149

### Comfortable, everyday massage for *everybody*.

Feel better throughout the day with Theragun Relief, your go-to percussive massage device for everyday comfort. Comfortable and light, Theragun Relief is our most easy-to-use device using scientifically proven percussive massage therapy to provide fast and effective relief from daily aches, pains, tension and stiffness. ## RecoveryAir JetBoots

\$799

### Wireless compression boots for rapid recovery.

Recharge your legs anytime, anywhere with fully wireless JetBoots. Merging innovative pneumatic compression technology with a wireless, portable design, JetBoots make rapid leg recovery more convenient than ever. Scientifically-designed to boost circulation, reduce muscle soreness and accelerate your recovery, TruGrade Technology™ and FastFlush Technology™ work together to deliver safe, precise pressure sequentially up the leg through the overlapping chambers 2-3x faster than the leading competitor. Fully inflating and deflating in just 60 seconds, you get more compression cycles in less time, for faster more effective recovery. With built-in pumps, one-touch controls and a portable design, JetBoots fit seamlessly into your day — keeping you performing at your best.

#### Features:

- Fully wireless boots with integrated pumps
- FastFlush Technology™ for 2-3x faster recovery cycles
- TruGrade Technology™ delivers safe, precise compression
- 4 time intervals
- 4 pressure settings
- 4 internal overlapping chambers
- Built-in LCD screen with one-touch controls
- Easy-to-clean, hygienic design
- 240 min battery life
- Bluetooth connected to Therabody App for 2 preset programs, treatment customization and program sharing
- FDA-cleared
- FSA / HSA eligible

#### Key Benefits:

- Recover faster
- Reduce muscle soreness
- Increase circulation
- Improve mobility

#### Includes:

- 2 compression boots with integrated pumps
- 36w charger - jack port
- Splitter charging cord
- Travel bag

## RecoveryAir Prime

\$599

### Advanced compression simplified for everybody.

Our easy-to-use pneumatic compression system makes it accessible for anybody to experience fast, effective leg recovery. Simply set your time and pressure, then sit back, relax, and recharge your legs. FastFlush Technology™ enables rapid recovery 2-3x faster than competitors. Along with two recovery preset programs, you'll get guided recovery programs when you connect to the Therabody App via Bluetooth®.

#### Features:

- FastFlush Technology™ for 2-3x faster recovery cycles
- TruGrade Technology™ delivers safe, precise compression
- 4 time intervals
- 9 pressure settings
- Adjustable pressure hold and release time
- My Recovery Stats tracking
- Easy-to-clean, hygienic design with 4 internal overlapping chambers
- 240 min battery life
- Bluetooth connected to Therabody App for 2 preset programs, treatment customization and program sharing
- FDA-cleared
- FSA / HSA eligible

#### Key Benefits:

- Recover faster
- Reduce muscle soreness
- Increase circulation
- Improve mobility

#### Includes:

- RecoveryAir Prime pump
- 2 compression boots
- Blocker plug (for single garment use)
- DC power adapter
- Pump pouch

# RecoveryAir PRO

\$1,299

## Fully customizable pneumatic compression system.

RecoveryAir PRO gives you total control to create the most customizable pneumatic compression experience in recovery. Adjust an array of pressure and time settings of four preset programs, or start with four unique inflation cycles and go freestyle with PRO mode. Our FastFlush Technology™ delivers pressure massage 2-3x faster than competitors.

### Features:

- FastFlush Technology™ for 2-3x faster recovery cycles
- TruGrade Technology™ delivers safe, precise compression
- Freestyle PRO mode
- 4 preset programs
- 4 inflation cycles
- Customizable time intervals
- Customizable pressure settings

## Sizing Guide

For a proper fit of your RecoveryAir compression boots, measure the outseam of your leg from your ankle to hip flexor. Use this outseam length to select your size from the chart below. If you are in-between sizes, we recommend sizing down to ensure the best fit.

### How To Measure

#### Outseam

Measure from your ankle to your hip flexor, as shown here.

#### Width

Measure the circumference of the thickest part of your thigh.

Boot Sizes	Height	Outseam	Max Width
Small	5' – 5' 55" 152 – 169 cm	27" – 33.5" 70 – 85 cm	Up to 27.6" Up to 70 cm
Medium	5' 6" – 6'1 70 – 183 cm	31.5" – 37.5" 80 – 95 cm	Up to 31.5" Up to 80 cm
Large	6' – 6' 6" 183 – 198 cm	35.5" – 41" 90 – 105 cm	Up to 31.9" Up to 81 cm
X-Large	6' – 6' 6" 183 – 198 cm	35.5" – 41" 90 – 105 cm	Up to 38.5" Up to 98 cm

# TheraFace PRO

\$399

## The all-in-one, clinically-proven skincare device for healthier, glowing skin.

The TheraFace PRO is an all-in-one, clinically-proven skincare device that reveals healthy, glowing skin in as little as 12 weeks. This customizable device offers 8 powerful treatments in one compact device that lifts and firms skin, reduces the appearance of fine lines and wrinkles, and keeps skin looking radiant and youthful from the inside out.

### Treatments & Benefits:

- **Microcurrent** -Firms and sculpts with gentle muscle stimulation and improves muscle tone on face and neck.
- **Red LED Light** -Helps reduce wrinkles around the eyes. Can be paired with percussive attachments.
- **Red + Infrared LED Light** -Helps reduce wrinkles around the eyes.
- **Blue LED Light** -Helps reduce mild to moderate acne.
- **Percussive Flat** -Helps relieve general muscle tension in the face, neck, jawline and head.
- **Percussive Cone** -Precisely targets areas around the eyes, smile lines and key pressure points.
- **Percussive Micro-Point** - Maximizes circulation anywhere, especially on larger areas such as forehead, cheeks and chest.
- **Cleansing** -Effectively removes pore-blocking dirt, oil and debris with percussive cleansing.

- **Hot Ring** (sold separately)- Helps your skin absorb skincare products and improve radiance.
- **Cold Ring** (sold separately)- Reduces puffiness and soothes tension.

### Features:

- All-in-one device with 8 treatment options
- Percussive therapy optimized for the face
- Microcurrent
- Red LED light therapy
- Red + Infrared LED light therapy
- Blue LED light therapy
- Percussive cleansing
- Hot & Cold therapy (sold separately)
- Create custom routines based on your personal needs
- Compact, portable design
- 120 min battery life

### Includes:

- TheraFace PRO device
- 3 Percussive Facial Attachments (Cone, Micro-Point, Flat)
- Microcurrent Ring

- One 39.4 inch strap
- USB-C charging cable

# RecoveryTherm Back

\$249

## Wearable heat and vibration therapy for advanced lower back pain relief.

Experience advanced lower back pain relief with RecoveryTherm Back. This wearable device redefines back therapy by delivering heat therapy and targeted vibration therapy directly to your lower back to effectively relieve back pain, reduce discomfort and stiffness, and improve mobility. Our cutting-edge fabric evenly distributes heat and improves circulation, enhancing your body's natural healing process. Whether you're managing chronic lower back pain or suffering from minor muscle tweaks, RecoveryTherm Back is a simple, convenient way to find relief that fits into your daily routine.

### Features:

- Precise heat therapy with targeted vibration therapy for effective pain relief
- Customizable treatments with 3 heat levels and 3 vibration settings
- Combined therapy functionality with vibration usable independently or combined with heat for enhanced treatment
- Wearable, hands-free design for convenient relief anytime, anywhere
- One-size-fits-all design
- Easy to use controls
- Carbon fiber mesh evenly distributes precise heat around your body
- Germanium fabric to improve circulation
- 3 hour battery life

### Key Benefits:

- Relieve lower back pain
- Improve mobility
- Reduce stiffness
- Accelerate recovery

### Includes:

- RecoveryTherm Back device
- Removable battery
- Soft case
- USB-C charging cable

# RecoveryTherm Knee

\$399

## Four advanced therapies for comprehensive knee recovery.

Step into the future of wearable knee therapy with RecoveryTherm Knee. This innovative device combines four therapies — cold, heat, contrast and vibration — for a comprehensive recovery experience. RecoveryTherm Knee is designed with Cryothermal Technology™ for precise, science-backed temperatures and germanium fabric to increase circulation and boost your body's natural healing process. This powerful combination reduces pain, improves range of motion and decreases inflammation. Whether you're recovering from a minor knee injury, managing chronic knee pain or preparing for physical activity, RecoveryTherm Knee gives you the advanced, effective relief and recovery you need.

### Features:

- Four-in-one recovery integrating heat, cold, contrast, and vibration therapies
- Precise, science-backed temperature levels with Cryothermal Technology™
- 3 easy to use preset treatments – Heat, Cold & Contrast
- 3 vibration settings for individual use or combined with other treatments
- Germanium fabric to improve circulation
- Wearable, hands-free design for convenient relief anytime, anywhere
- One-size-fits-all
- 60 min battery life

### Key Benefits:

- Treat injuries
- Relieve pain
- Improve mobility
- Reduce inflammation
- Accelerate recovery

### Includes:

- RecoveryTherm Knee device
- Removable battery
- Soft case
- USB-C charging cable and power adapter

## RecoveryPulse Arm

\$149 (single)

\$249 (pair)

### Wearable vibration and compression therapy for on-the-go recovery and relief.

RecoveryPulse Arm combines compression and vibration in a wearable device to maximize convenience and efficacy of your recovery. You can now accelerate your recovery and relieve minor aches and pains such as tennis elbow and golfer's elbow without slowing down or stopping. Our FlowKnit Fabric™ is infused with Germanium to provide far infrared benefits, and our patent-pending design, VibraPulse Technology™, integrates our proprietary QX-Micro Motors woven uniquely into the fabric of the sleeve to deliver targeted vibration to the biceps, triceps and forearm muscles.

#### Features:

- Compression with targeted vibration for enhanced relief
- VibraPulse Technology™ integrates our proprietary QX-Micro Motors into the fabric of the sleeve to deliver targeted vibration to the arm muscles
- Made with Germanium fabric to increase circulation
- Wearable design for on-the-go convenience
- 3 vibration settings for a variety of treatments - low, high & wave
- Use a single sleeve or two sleeves at once
- 45 min battery life
- Machine washable (with battery removed)
- Sweat resistant

#### Key Benefits:

- Accelerate recovery
- Reduce pain & soreness
- Maximize warm-up
- Improve circulation

#### Includes: (two of each for pair)

- RecoveryPulse Arm Sleeve
- USB-C to USB-A charging cable
- Travel pouch

## RecoveryPulse Calf

\$149 (single)

\$249 (pair)

### Wearable vibration and compression therapy for on-the-go recovery and relief.

RecoveryPulse Calf combines compression and vibration in a wearable device to maximize convenience and efficacy of your recovery. You can now accelerate your recovery and relieve minor aches and pains without slowing down or stopping. Our FlowKnit Fabric is infused with Germanium to provide far infrared benefits, and our patent-pending design, VibraPulse Technology™, integrates our proprietary QX-Micro Motors woven uniquely into the fabric of the sleeve to deliver targeted vibration to the calf muscles.

#### Features:

- Compression with targeted vibration for enhanced relief
- VibraPulse Technology™ integrates our proprietary QX-Micro Motors into the fabric of the sleeve to deliver targeted vibration to the calf muscles
- Made with Germanium fabric to increase circulation
- Wearable design for on-the-go convenience
- 3 vibration settings for a variety of treatments - low, high & wave
- Use a single sleeve or two sleeves at once
- 45 min battery life
- Machine washable (with battery removed)
- Sweat resistant

#### Key Benefits:

- Accelerate recovery
- Reduce pain & soreness
- Maximize warm-up
- Improve circulation

#### Includes: (two of each for pair)

- RecoveryPulse Calf Sleeve
- USB-C to USB-A charging cable
- Travel pouch

# PowerDot Uno

\$199

## Smart muscle stimulation for targeted recovery.

Experience targeted recovery with PowerDot Uno, a personalized solution for advanced muscle stimulation and targeted pain relief. Traditionally requiring two separate devices, PowerDot Uno combines science-backed TENS and NMES technologies into a portable, lightweight pod to relieve pain, accelerate recovery and enhance performance. TENS relieves pain by sending tiny electrical signals to your nerves, reducing pain signals to the brain. NMES accelerates recovery by sending electrical signals to your muscles, causing them to contract and relax. The two technologies together make for a more effective, efficient experience. The PowerDot app removes guesswork with expert recommendations on intensity, pad placement, and tailored routines specific to your needs. Whether you're pushing your athletic boundaries or seeking relief from period pain, PowerDot Uno simplifies muscle stimulation and delivers safe, effective muscle recovery anytime, anywhere.

### Features:

- NMES and TENS technology for effective recovery and pain relief
- Compact, lightweight pod design
- Smart PowerDot app offers guidance on intensity, pad placement, and session duration
- Comprehensive library of personalized treatments tailored to your performance, wellness, and pain needs
- Smart connectivity integrates with popular fitness apps to curate routines based on your recent activities
- Reusable electrode pads that last for 20-25 treatments 20 hour battery life

### Key Benefits:

- Relieve pain
- Accelerate recovery
- Improve performance
- Period pain relief

### Includes:

- 1 PowerDot pod
- 1 set of electrode pads (2 rectangular electrode pads, 4 round electrode pads)
- 1 set of lead cables
- 1 micro USB charging cable
- Protective carrying case

## PowerDot Duo

\$349

### Smart muscle stimulation for targeted recovery of two treatment areas.

Experience targeted recovery in two treatment areas with PowerDot Duo, a personalized solution for advanced muscle stimulation and targeted pain relief. Traditionally requiring two separate devices, PowerDot Duo combines science-backed TENS and NMES technologies into a portable, lightweight pod to relieve pain, accelerate recovery and enhance performance. TENS relieves pain by sending tiny electrical signals to your nerves, reducing pain signals to the brain. NMES accelerates recovery by sending electrical signals to your muscles, causing them to contract and relax. The two technologies together make for a more effective, efficient experience. The PowerDot app removes guesswork with expert recommendations on intensity, pad placement, and tailored routines specific to your needs. Whether you're pushing your athletic boundaries or seeking relief from period pain, PowerDot Duo simplifies muscle stimulation and delivers safe, effective muscle recovery anytime, anywhere.

#### Features:

- NMES and TENS technology for effective recovery and pain relief
- Two pods for double the recovery in half the time
- Compact, lightweight pod design
- Smart PowerDot app offers guidance on intensity, pad placement, and session duration
- Comprehensive library of personalized treatments tailored to your performance, wellness, and pain needs
- Smart connectivity integrates with popular fitness apps to curate routines based on your recent activities
- Reusable electrode pads that last for 20-25 treatments
- 20 hour battery life

#### Key Benefits:

- Relieve pain
- Accelerate recovery
- Improve performance
- Period pain relief

#### Includes:

- 2 PowerDot pods
- 1 set of electrode pads (2 rectangular electrode pads, 4 round electrode pads)
- 2 sets of lead cables (10 cm and 30 cm)
- 2 micro-USB charging cables
- Protective carrying case

# Wave Roller

\$149

## Vibrating foam roller for large muscle group recovery.

Experience effective muscle recovery with Wave Roller, our modern take on traditional foam rolling. Wave Roller's high-density foam delivers optimal pressure deep into the muscles, while powerful vibration therapy makes your rolling experience more effective, and dampens the pain typically experienced with rolling. Choose from 5 vibration intensity levels and select one that suits your personal comfort level help relieve soreness, reduce tension, improve mobility and accelerate recovery. Our innovative wave texture provides maximum traction for stability and control during your rolling sessions, while our 12-inch design maximizes contact with the body, making it extremely efficient to roll out large muscle groups like the hamstrings, quads, and back.

### Features:

- 12 inch surface area to maximize contact with the body
- Vibration therapy enhances the effects of rolling and dampens the pain
- 5 vibration settings
- Hypoallergenic high-density foam
- Innovative wave texture for maximum traction
- Compact, portable design
- 3 hour battery life
- Bluetooth connected to the Therabody App for guided recovery routines

### Key Benefits:

- Accelerate recovery
- Relieve soreness
- Reduce tension
- Improve mobility

### Includes:

- Wave Roller
- Travel bag
- Power adapter

## Wave Duo

\$99

### Vibrating roller contoured to the back, spine, and neck for targeted relief.

Experience targeted neck and back relief with Wave Duo, our modern take on traditional rolling. Wave Duo's ergonomic design delivers targeted pressure deep into the muscles, while powerful vibration therapy makes your rolling experience more effective, and dampens the pain typically experienced with rolling. Choose from five vibration intensity levels and select one that suits your personal comfort level to help relieve soreness, reduce tension, improve mobility and accelerate recovery. Our innovative wave texture provides maximum traction for stability and control during your rolling sessions, while our contoured shape comfortably applies pressure to the back and neck muscles on either side of the spine for safe, effective relief.

#### Features:

- Ergonomic design contoured to the back, spine, and neck
- Vibration therapy enhances the effects of rolling and dampens the pain
- 5 vibration settings
- Innovative wave texture for maximum traction
- Compact, portable design for easy packing and storage
- QuietRoll Technology™ for silent, discreet treatments
- 200 minute battery life
- Bluetooth connected to the Therabody App for guided recovery routines

#### Key Benefits:

- Targeted muscle relief
- Relieve soreness
- Reduce tension
- Improve mobility

#### Includes:

- Wave Duo
- Travel pouch
- USB-A to USB-C cable

# Wave Solo

\$79

## Vibrating ball roller for pinpointed recovery.

Experience pinpointed muscle relief with Wave Solo, our modern take on traditional ball rolling. Wave solo's ball-shaped design delivers targeted pressure deep into the muscle, while powerful vibration therapy makes your rolling experience more effective, and dampens the pain typically experienced with rolling. Choose from three vibration intensity levels and select one that suits your personal comfort level to help relieve soreness, reduce tension, and improve mobility. Our innovative wave texture provides maximum traction for stability and control during your rolling sessions, while our ultra-portable design makes it easy to get on-the-spot treatment whenever, and wherever you need it.

### Features:

- Ball-shaped design delivers pinpointed pressure
- Vibration therapy enhances the effects of rolling and dampens the pain
- 3 vibration settings
- Innovative wave texture for maximum traction
- Compact, ultra-portable design
- QuietRoll Technology™ for silent, discreet treatments
- 120 minute battery life
- Bluetooth connected to the Therabody App for guided recovery routines

### Key Benefits:

- Pinpointed muscle relief
- Relieve soreness
- Reduce tension
- Improve mobility

### Includes:

- Wave Solo
- Travel pouch
- USB-A to USB-C cable

# WaveSeries

by Therabody

## Wave Roller

Vibrating foam roller for large muscle group recovery.

- Vibration therapy dampens the pain typically experienced with rolling
- 5 vibration frequencies
- Hypoallergenic high-density foam
- 12 inch surface area to maximize contact with the body
- Innovative wave texture for maximum traction
- Compact, portable design
- 3 hour battery life
- Bluetooth connected to the Therabody App for guided recovery routines

## Wave Duo

Vibrating roller contoured to the back, spine, and neck for targeted recovery.

- Ergonomically contoured design for the back, spine, and neck
- Vibration therapy dampens the pain typically experienced with rolling
- 5 vibration frequencies
- Innovative wave texture for maximum traction
- Compact, portable design for easy packing and storage
- QuietRoll Technology™ provides silent operation
- 200 minute battery life
- Bluetooth connected to the Therabody App for guided recovery routines

## Wave Solo

Vibrating ball roller for pinpointed recovery.

- Ball-shaped design delivers pinpointed pressure
- Vibration therapy dampens the pain typically experienced with rolling
- 3 vibration frequencies
- Innovative wave texture for maximum traction
- Compact, ultra-portable design
- QuietRoll Technology™ provides silent operation
- 120 minute battery life
- Bluetooth connected to the Therabody App for guided recovery routines

## Therabody Lounger

\$3,999

### Sound and vibration for full body relaxation.

From the creators of Theragun® comes Therabody Lounger, a full body and mind experience that delivers a multi-sensory sound vibration therapy. Therabody Lounger goes beyond traditional Vibroacoustic therapy by passing a high range of sound through the body that can be heard and felt. Sound Heart™ hardware is strategically positioned within Therabody Lounger to deliver a simultaneous full-body experience. Therabody Lounger easily adjusts to your desired position, including a zero-gravity position, which reduces gravitational pressure on your lower back, characteristic of a typical sleeping position, improving your sleep experience.

#### Features:

- Zero gravity lounger with fully adjustable seating positions for ultimate relaxation
- Sound Heart™ hardware strategically positioned throughout lounger for simultaneous full-body treatment
- Integration with TheraSound Audio content to induce relaxation and sleep, while reducing stress, decreasing muscle tension and pain, and improving mobility
- Sound agnostic capabilities to easily integrate with music and video streaming services, as well as gaming platforms

#### Includes:

- Lounger
- Headrest pillow and sleeve
- Audio cable
- Attached AMP
- Power adapter
- TheraSound Technology (assembled)

# Therabody App

Your wellness coach in your pocket.

The Therabody app is here to help you personalize the way you care for your body and mind, based on your unique needs. With education designed by experts in science and physiology, learn the best way to use your Therabody products for maximum benefits. With our in-depth onboarding videos and routine suggestions, you will see exactly which areas of the body to treat, which attachment to use, and how to position your device.

Explore our expansive library of step-by-step guided routines that are personalized to your unique goals, pain points, and activities. Plus, listen to science-backed TheraMind sound therapy, designed to help you relax, sleep and recover with your Therabody device. Whether you're an active athlete or looking for a much-needed break from the workday, the Therabody app supports your goals and needs in real-time and is with you every step of your wellness journey.
